QUESTION 1

Review the screenshot, and then answer the question below.

You perform a default installation of OS X Mountain Lion, and create the initial admin account, and accounts for Chris and Pat, as shown above. The Chris account is a member of which group?

A. chris

B. workgroup

C. wheel

D. staff

Correct Answer: D

QUESTION 2

An OS X Mountain Lion computer is connected to both an Ethernet and a Wi-Fi network. How can you specify which

interface the Mac will use to access the Internet?

A. Use Internet Connect to select the preferred interface, and disable the other interface(s).

B. Enter a DNS configuration for the preferred interface, and delete the DNS configuration for the other interface(s).

C. Assign a public IP address to the preferred interface, and a private IP address to the other interface(s).

D. Use the Set Service Order action to move the preferred interface to the top of the Service Order list.

Correct Answer: D

QUESTION 3

You are configuring an OS X Mountain Lion computer that will be located in a public space. You want anyone to be able to log in and use Safari, but you do NOT want their Safari browser history to remain on the computer after users log out. Which action will let the computer function in the desired manner?

A. Enable the Guest account for login.

B. Create a managed account with Parental Controls.

C. Create a Sharing Only account.

D. Create a Guest account.

Correct Answer: ABD

QUESTION 4

What can you enable to locate a lost Mac system?

A. The master password is used to reset local account passwords.

B. Using the Finder Info window you can force an application to open in 32-bit mode. This step is necessary for a 64-bit application to support older 32-bit plug-ins or application resources.

C. To automatically connect a file share when the user logs in to the system, drag the share from the Finder to the user\\'s login items in Users and Groups preferences. Or you can drag the share to the right side of the user\\'s Dock, and it will automatically connect when the user clicks the share\\'s icon in the Dock.

D. iCloud Find My Mac allows you to remotely locate a lost Mac system. You enable this feature in iCloud preferences. To locate a lost Mac system, you can use the iCloud website or the Find My iPhone app on an iOS device.

Correct Answer: D

QUESTION 5

On your OS X Mountain Lion computer, you want the Finder to display filename extensions by default. How can you configure this setting from the Finder?

A. Choose Preferences from the Finder menu, click Advanced, and select the option "Show all filename extensions."

B. Control-click anywhere on the Desktop, select Preferences from the pop-up menu, click Advanced, and select the option "Show all filename extensions."

C. Choose Show View Options from the View menu, and select the option "Show all filename extensions."

D. Select any file icon, and choose Get Info from the File menu. In the Info window, click the disclosure triangle next to Name and Extension, deselect the option "Hide extension," and click Change All.

Correct Answer: A
