100% Passing Guarantee
100% Money Back Assurance

Following Questions and Answers are all new published by IBM Official Exam Center

-  **Instant Download** After Purchase
-  **100% Money Back** Guarantee
-  **365 Days** Free Update
-  **800,000+** Satisfied Customers

QUESTION 1

What combination of these Watson AI capabilities are applicable for an email-based, help desk?

- A. structured data analytics
- B. image classification
- C. keyword extraction
- D. speech recognition
- E. text classification
- F. entity extraction

Correct Answer: CE

QUESTION 2

When is it appropriate to include multiple classes for a sample text in the training data for IBM Watson Natural Language Classifier?

- A. When the text is very detailed such that identifying a single class may cause inaccuracies.
- B. When the classifier has been retained and we want to preserve old classes from a previous training set.
- C. When experts interpret the same text in different ways, multiple classes support those interpretations.
- D. When the text utterances are very similar in nature and we want to mark slight differences using classes.

Correct Answer: C

QUESTION 3

A university wants to build a virtual student adviser that can interact with prospective students to help answer any questions they may have on the admissions process. The students for the most part have similar questions, however there are a small number of international students who have very specific queries based on their native country and their background.

Which combination of IBM Watson services would meet these requirements?

- A. Natural Language Understanding and Personality Insights
- B. Natural Language Classifier and Visual Recognition
- C. Watson Assistant and Discovery
- D. Speech to Text and Tone Analyzer

Correct Answer: C
